Dear Les,

St. Cloud Technical and Community College and SCTCC Foundation are pleased to announce the following students have been awarded your scholarship. The students were selected based on the criteria you provided and we believe that the recipients represent the best and the brightest students that SCTCC has to offer. The award is designated for the upcoming school year.

Central MN Manufacturing Association Scholarship Recipient - Timothy Mader

Every January we celebrate the generosity of our donors whose scholarships have been awarded and we invite the scholarship recipients to attend as well. You will receive an invitation complete with details in December 2010.

We simply cannot thank you enough for your generosity. Every scholarship dollar reflects an investment in our students, our College, our community and our future. As stewards of your trust and resources our students are our best ambassadors. We know that you will find your investment returned many times over when you meet the scholarship recipients.

We look forward to thanking you in January, but before that we want you to know that you are a member of a large group of individuals whose collective generosity has provided more than 2,179 scholarships totaling \$1,306,429 since 1998. You have truly made a difference in the lives of our students and our community.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Helens', with a long horizontal flourish extending to the right.

Joyce Helens
St. Cloud Technical and Community College President
